PROFESSIONAL OVERVIEW

Motivated and detail-oriented Junior Full Stack Developer with practical experience in Web and Mobile Development. Skilled in building responsive, user-friendly web and mobile applications, and designing efficient database systems. Passionate about developing scalable, maintainable software solutions and contributing to innovative projects in collaborative environments. Eager to grow by applying both academic knowledge and hands-on skills in real-world development challenges

WORK EXPERIENCE

Junior Full-stack Developer (Intern)

ICEP, Soshanguve, Pretoria, S.A. | 2024 JUN – 2025 JUN

Designed and implemented:

- Log management system with status changes (PENDING, INPROGRESS, ONHOLD (with a note), RESOLVED). Integrated SLA for issue monitoring
- Technician collaboration feature with real-time invite handling and filtered assignment.
- Live chat between staff and technicians for issue follow-up.
- Feedback & rating system with comment capture.
- QR code integration for log issue form auto filling and issue location.
- Developed secure RESTful APIs with proper validation and error handling.
- Ensured efficient state management and routing with React Hooks and React Router.
- Applied Agile practices with Git version control.
- Focused on clean code, component reusability, and full CRUD functionality.

Tech Stack: React.js, ASP.NET Core Web API, Microsoft SQL Server, Entity Framework, Bootstrap, JavaScript, HTML5, CSS3, Git, Swagger.

PERSONAL INFORMATION

- ID Number: 0306175906081
- Date of birth: 2003-06-17
- Gender: Male
- Nationality: South African
- Marital status: Single

PROJECTS

Tshwane Find - A System that enhances more cultural facilities of the City of Tshwane to be more informational, built using PHP, and be more of use, it uses Google maps APIs and Augmented Reality.

Technical Support Logging System - A technical support logging system built using C# and ASP.NET Core to facilitate issue resolution in time and provide real time response, notification and communication amongst users as to ensure accountability of issue being resolved.
