

Lunga Nhlakanipho Ntshingila

Junior Full Stack Developer

0813479054 | lungamngomezulu10@gmail.com | Pretoria, Soshanguve | [Portfolio](#) | [github.com/gitLunga](#)

PROFILE

Junior Full Stack Developer with production experience across two internships, building complete systems from first commit to deployment. Skilled in REST API development, multi-stage workflow systems, JWT authentication, real-time features, and cross-platform frontends. National hackathon winner, GovTech 2025 conference presenter, and hackathon coach. Works well independently and in small remote teams under real-world delivery pressure.

WORK EXPERIENCE

Junior Full Stack Developer (Intern), MICT SETA Programme 2024 to 2025

Malcam ICT Solutions, Remote, 3-person development team

- Built DOJCD Connect, a 3-application government device procurement system comprising a Node.js REST API, React admin dashboard, and React Native mobile app, owning the architecture and the majority of features from first commit to production deployment
- Designed a multi-stage BPM approval workflow covering Manager Review, Finance Review, and Order Placement stages, with real-time SLA breach detection computed using PostgreSQL CTEs
- Implemented production-grade JWT authentication including access and refresh token rotation with SHA-256 hashing, BCrypt password hashing, role-based access control across 6 roles, IDOR protection, and an atomic audit trail
- Built document management with Supabase and local VPS storage, a Nodemailer email notification service with error isolation, and an admin dashboard with Recharts visualisations and Excel and CSV data export

Technologies: Node.js, Express.js, PostgreSQL, JWT, BCrypt, React, Material UI, Recharts, React Native, TypeScript, Expo, Supabase, Git

Junior Full Stack Developer (Intern) June 2024 to June 2025

ICEP, Soshanguve, Pretoria

- Built a full technical support logging system including a status workflow from Pending through In Progress, On Hold, and Resolved, SLA monitoring, real-time technician collaboration with invite handling, live chat per issue, QR code auto-fill, and a feedback and rating system
- Developed secure RESTful APIs using ASP.NET Core with input validation and Swagger documentation, and applied Agile practices with Git version control throughout

Technologies: React.js, ASP.NET Core, Microsoft SQL Server, Entity Framework, Bootstrap, JavaScript, Git, Swagger

VOLUNTEER EXPERIENCE

Hackathon Coach 2025

TVH, Soshanguve, Pretoria

- Mentored student hackathon teams on software architecture, problem-solving approach, and technical presentation under competition conditions

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C#, Java, PHP, HTML5, CSS3, SQL

Backend: Node.js, Express.js, ASP.NET Core Web API, Entity Framework, JWT, BCrypt, Nodemailer

Frontend: React.js, React Native, Expo, Material UI, Bootstrap, React Hooks, React Router

Database: PostgreSQL, Microsoft SQL Server, MySQL, Supabase

Concepts: OOP, SOLID Principles, BPM, RBAC, Audit Trails, SLA Monitoring, Layered Architecture

Tools: Git, GitHub, Swagger, Agile, VS Code, WebStorm

EDUCATION AND ACHIEVEMENTS

Advanced Diploma in Computer Science <i>Tshwane University of Technology, Pretoria</i>	<i>2026 to Present</i>	Achievements MICT SETA National Hackathon Winner, Farmora AgriTech, 2025
--	------------------------	---

Diploma in Computer Science <i>Tshwane University of Technology, Pretoria</i>	<i>2021 to 2024</i>	- GovTech 2025 Conference Presenter, SITA, Durban - ICEP Helping Hand Award, 2024
National Senior Certificate, Bachelor Pass <i>Indonsa Technical High School</i>	<i>2020</i>	- Hackathon Top 5, TVH, 2024 - Hackathon Top 5, MAISH, 2023
